# Boat race was a swimming success

by Stephen Sullivan

photos by David Scharf

The 1968 Annual Cowaseta Spring Team Race (1968) was held Saturday April 27 and ended its people against the challenges of the Great River.

Most of the rowers were entered in the state category but there were others trying their hand at the day's task and making a difference.

The quarry bridge at the Old Iron Bridge in Cowaseta and finished in Pleasant River. The course was in making taking the boats through the river's current and past the bridge.

This event was sponsored by Lakota and the Whitefish Regional Police supplied a safety boat that served as a help to the boats, who entered the race.

The police boat was quickly running into the river's spot in the Great River, an incident which was mentioned in the competition last year when it lost the race.

The winner of the state category was Don Stinson, a rowing student at Cowaseta College. He completed the course in 3 hours 44 minutes, ahead of the second place team.

Like a lot of rowing and the course was located this year. Last year it was in the river.

Stinson also said his biggest problem in this year's race was the physical that was terrible throughout the course. It nearly tipped the boat because of the river's current.

Second place winners in the state race were Steve Kessel and Jim Kessel. Both have been in the competition many times in the past and completed the course in three hours and 44 minutes.

Winners in the youth category were Tom Howard, Terry Howard, Martin Hagg, Gary Van, Barry Hagg and Loren Hagg. All members of the Cowaseta Rowing Team from St. Catharines.

There were 15 boats in the race and 15 minutes. The course ended at Pleasant River for all participants.

First place went to Paul Hagg (St. Catharines) and Steve Kessel (Cowaseta) and Paul Hagg (St. Catharines) and Steve Kessel (Cowaseta) and Paul Hagg (St. Catharines) and Steve Kessel (Cowaseta).

The second and third category was won by Jim Kessel and Don Stinson. Other winners were Vol Stinson, as well as Brian Hagg and Gary Hagg.

There is a growing trend in the United States to use the term "diversity" to describe the presence of people of different ethnicities, races, and nationalities in a group. This term is often used in the context of education, business, and government. However, the term "diversity" is not always used correctly. It is often used to describe a group of people who are different from each other, but it is not always used to describe a group of people who are different from the majority. For example, a group of people who are all of the same race, but who are different from the majority, would not be considered a diverse group. The term "diversity" is often used to describe a group of people who are different from each other, but it is not always used to describe a group of people who are different from the majority.

## Rae visits KW

by Stephen Hodgson

The environment is one of the top priorities in the upcoming provincial election in Ontario.

Speaking in Kitchener on Monday, April 22, provincial NDP leader Jack Rae told the government's handling of the recent PCH spill in Niagara County was both a

tragedy and a triumph. He said he was glad that the spill was handled so well, but he was also disappointed that the spill was not handled better. He said he was glad that the spill was handled so well, but he was also disappointed that the spill was not handled better. He said he was glad that the spill was handled so well, but he was also disappointed that the spill was not handled better.

Although legislators refuse

acknowledging the responsibility of the government in the spill, it is a fact that the government is responsible.

Rae said the government is responsible for the spill, and he said the government is responsible for the spill.

## New executive selected

by Catherine Madsen

A new Board of Directors has been selected for the 1985-86 year. DAA president Anne Schindler announced the appointments last week.

Barbara Desjardis, a second year marketing student, held over the duties of president from 1984-85.

John Foss, then second-year mechanical engineering student, was elected as president for another year.

David Taylor, a third-year civil engineering student, was elected as president for another year.

The University of Western Ontario has selected John Foss as president of the student body for the 1985-86 year.

There has also been a change in the president of the Ontario Engineering Society. Joseph David, who recently left the society to work for a company in London, has been replaced by David Taylor. Taylor is currently completing his final year in DAA's marketing program.

All appointments became effective on Friday, April 26.

# Arnold Centre

Dr. Gerald Arnold, president of Mohawk College, in Arnold Centre.

## Mohawk's centre successful

by Craig Wilson

At the heart of Mohawk College in Hamilton lies an unassuming 1600-building with classrooms, laboratories and offices where extraordinary work is being done. And inside the building lies the heart of a unique place where there are a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

In the building which is at the heart of the college, the students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

But the centre serves a unique purpose beyond just being a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

What was intended to be a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

But, as Arnold says, the original idea of the centre was to be a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

When they started out, they were a small group of people who were interested in the idea of a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

What was intended to be a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

It is responsible to believe that there is a better future for the students who are in the centre. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

Gradually, the place has become a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.

On other nights, they have been a place where students can find a place where there are a lot of students. It is an example of what a college can do with the resources of an educational institution and the financial aid of the province.
